## SOBRE MI

I am 35 years old and I have been living in Madrid for 16 years since I came here to study at university.

I have always loved children and I have been in contact with them since I started studying. During my time as a student I worked as a nanny for 8 years. Then I worked in a nursery school where I later became the coordinator and I'm currently the director. I seek to continue helping children in their development, vocationally, applying all my knowledge and experience. I love being able to be a support for both children and families
